SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation — Remove to fresh air immediately. Keep patient at rest and give oxygen if breathing difficult. Wash out mouth with water. Clear nasal passages. If symptoms persist, obtain medical attention.

Skin Contact — Molten material can cause severe burns. Do NOT try to peel molten material from the skin. Cool rapidly with water. Seek medical treatment.

Eye Contact — Flush eyes with water for at least 15 minutes while holding eyelids open. If symptoms persist, obtain medical attention.

Ingestion — Do NOT induce vomiting. If conscious, give 2 glasses of water. Never give anything by mouth to an unconscious person. If symptoms persist, obtain medical attention.

4.2 Most important symptoms and effects, both acute and delayed — Molten material can cause severe burns. Dust may have irritant effect on eyes.

4.3 Indication of immediate medical attention and special treatment needed — See 4.1 eye contact / skin contact

SECTION 5: FIRE-FIGHTING MEASURES

5.1	**Extinguishing Media**	Foam, CO_2 or dry powder. As appropriate for surrounding fire.
5.2	**Unsuitable Extinguishing Media**	Do not use water jet, water spray.
5.3	**Fire Fighting Protective Equipment**	A self contained breathing apparatus and suitable protective clothing should be worn in fire conditions.
5.4	**Hazardous Decomposition Products**	Thermal decomposition will evolve toxic and irritant vapours. (400 °C and 700 °C). Can melt and burn in a fire. Molten polymer will adhere to the skin causing deep thermal burns. Heat value 8000-11000 kcal/kg.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1	**Personal precautions**	Ensure suitable personal protection (including respiratory protection) during removal of spillages.
6.2	**Environmental precautions**	Do not allow to enter drains, sewers or watercourses.
6.3	**Methods and material for containment and cleaning up**	Vacuum or sweep up, transfer to a container, seal ready for disposal. Recover or recycle if possible.
6.4	**Additional Information**	Dust clouds are sensitive to ignition by electrostatic discharge. Caution - spillages may be slippery.

SECTION 7: HANDLING AND STORAGE

7.1	**Handling**	Do not breathe dust. Do not eat, drink or smoke at the work place. Wash face and hands before eating, drinking or smoking. Avoid contact with skin and eyes. Use only with adequate ventilation or closed system ventilation. When bringing the material to processing temperatures, gases may develop, forming: propylene, hydrocarbon substances with low molecular weight and their oxidation products solvent residues, traces of formaldehyde, acrylaldehyde, and traces of acids (formic acid, acetic acid). Take precautionary measures against static discharges.
7.2	**Storage**	Keep only in the original containers. Keep container dry, tightly closed in a cool, well-ventilated place. It is recommended not to double stack octabins. Ground/bond container and receiving equipment. No open flames, no sparks and no smoking.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.3 Exposure controls

8.3.1 Appropriate engineering controls Provide adequate ventilation, including appropriate local extraction if dusts, fumes or vapours are likely to be evolved.

8.3.2 Personal protection equipment

Respiratory protection Provide adequate ventilation, including appropriate local extraction if dusts, fumes or vapours are likely to be evolved. Where engineering controls are not fitted or inadequate wear suitable respiratory protective equipment.

Eye/face protection Eye protection with side protection (EN 166)

Skin protection (Hand protection/ Other) Avoid contact with skin, eyes or clothing. Protective gloves. (EU Directive 89/686/EEC & EN 374)

Thermal hazards Wear insulating gloves EN407 (heat).

Hygiene measures No smoking. Wash hands before breaks and immediately after using the product. Wash face and hands before eating, drinking or smoking. Wash thoroughly after contact with skin areas. Remove contaminated clothing and wash clothing before reuse. Do not eat, drink or smoke when using this product.

Environmental Exposure Controls Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. Do not allow to enter drains, sewers or watercourses.
